

Experiences and Outcomes

SOCIAL STUDIES (People, place and environment)

I can describe the major characteristic features of Scotland's landscapes and explain how these were formed. SOC 2-07a

SCIENCES (Materials)

Having explored the substances that make up the Earth's surface, I can compare some of their characteristics and uses. SCN 2-17a
(Planet Earth)

I can identify and classify examples of living things past and present, to help me appreciate diversity. I can relate physical and behavioural characteristics to their survival or extinction. SCN 2-01a

LITERACY

I am developing confidence when engaging with others within and beyond my place of learning. I can communicate in a clear and expressive way and I am learning to select and organise resources independently. LIT 2-10a

TECHNOLOGIES

Having analysed how lifestyle can impact on the environment and Earth's resources, I can make suggestions about how to live in a more sustainable way. TCH 2-02b

I explore and experiment with the features and functions of computer technology and I can use what I learn to support and enhance my learning in different contexts. TCH2-04a

HEALTH & WELLBEING

Representing my class, school and or wider community encourages my self worth and confidence and allows me to contribute to and participate in society. HWB 2-12a

Birds Rock!

In the Discovery Centre the children will improve their **teamwork** skills, working in groups, using cameras to gather **evidence** about the seabirds and their **habitats**. Their knowledge will then be tested in a competitive **interactive quiz**. The children will become **rock detectives** using rock kits and magnifying glasses to discover what the Bass Rock is, how it came into being and why the gannets like it so much. If they answer correctly they can explode their very own **class volcano!**
