

## Who lives on an island like this?

Through audience participation, interactive games and a visit to the Discovery Centre the children will **investigate** the essentials of **life**, gain an understanding of what a **habitat** is, and how the **physical features** of an area influence a variety of **living things**. The children will build upon their **teamwork** skills working in groups to create their very own **3D habitat**. (This workshop can be tailored to follow a rockpool ramble with the East Lothian Rangers - ask about this when booking.)
