

EGGBOX ROCKPOOL

WHAT DO I NEED?

- Empty egg box
- Paints and brushes
- String
- Glue or sticky tape
- Scissors
- Paper
- Coloured pens/pencils
- Seaside shells/pebbles

1

Paint the inside of the egg box blue and then leave it to dry.

2

Gather items to put in your box. These can be things found at the sea-side such as shells, dried-up seaweed and rocks.

3

Or you can use things that you've made yourself such as drawings or plasticine models of animals. In our example, we drew cartoons onto paper and coloured them in.

4

Place the items into the box and arrange them however you wish!

5

You can even make things dangle by attaching them to string and sticking them to the lid of the box.

6

Ta- da!
What an "eggs-ellent" box you've made.

Note: Please don't collect live animals and plants for your box – they need to be by the sea to survive .
